Remember seeing someone with a tent attached to the back of their surf. The search gives me every [ Off to see the wife ] post by every [ Off to see the wife ] on the [ Off to see the wife ] site, including the bullshit posted by that [ The mother-in-law ] whose name i will not mention for fear of Bibs beating me up for being cruel to dumb [ Off to see the wife ] animals.

So, where can i find one of these things.

[ I wonder if the wife will... ] shit shitty [ I wonder if the wife will... ] [ The mother-in-law ] in a piss storm.

i love our [ Off to see the wife ] swear filter!

I might just use a bit of old canvass and rivet it to the sides and top of the back of the truck.

Then next weekend do the grit mod.

I didn't even look at them ...
